

# QUICSEAL 665

Product Name

## Q - Shine

### Description

QUICSEAL 665 is a fluid especially made for the maintenance of quartz agglomerates due to traffic. The maintenance with this product will re-establish a very good sheen giving to old and dull surface and improves resistance to trafficking.

### Technical Data

Appearance	Cream
Color	White
Odour	Typical
pH	Neutral
Specific gravity (20°C )	1.05
Flash Point (ASTM D 56)	None

### Application

Shake well before use.

On large areas, pour about 20 ~ 30 g of the product on the surface and work with a polishing machine with white pad. Begin the polishing at 150 rounds/minute and continue until the product dries.

For first time polishing, 2 ~ 3 applications may be required with a few drops water added during the polishing.

### Caution

May cause irritation to eyes and skin. Keep away from children's reach.

### Packaging

QUICSEAL 665 is supplied in 5 litre tins.

### Shelf Life

12 ~ 24 months in original sealed packing kept in cool and dry place.

### **Fortuitous leakage and waste disposal method**

In case material is released or spilled, clean up the most of the product and vacuum up the residues. Store the residues coming from polishing operations and commit to a specialized company.
